

Medical Malpractice

Do You Have A Case?

Medical malpractice occurs when a healthcare professional's negligence causes injury or harm to a patient. This can include:

- Misdiagnosis
- Negligence
- Surgical Errors
- Birth Injury
- Procedural Errors
- Medication Mistakes
- Anesthesia Errors
- Delayed Diagnosis
- Failure to Treat Properly

What Compensation Can You Recover?

- Medical Expenses
- Lost Wages
- Pain and Suffering
- Long-term Disability Care
- Punitive Damages

Statute of Limitations

Standard about 2-3 years from the date of injury

.....
If the injured person didn't discover the injury until later, they may have up to four years to file a lawsuit.

.....
If the injured person was a minor when the malpractice occurred, they may have up to eight years to file a lawsuit.
